& CHRONICLE Will open a new Mail Book. and insert therein the names of those only who have paid or shall pay in ADVANCE. (We except only Soldiers, gratultous papers, and those who have other or running accounts.) By the Cash System we have thus far weathered the storm reasonably well, and a little more rigid adherence to it we think will earry our paper through Let Gold and Oil go up or down, we mean to "run" our machine in "the good old way." Those who wish to assist in this plan, please send in your money, by mail or otherwise as you think best. We prefer Greenbacks-but take the genuine postage currency - and want most kinds

of Produce in exchange for the News. We make no new promises for the future-only, that we hope the condition of public affairs may not require so much family and county paper.

On looking at our paper of 1853, and comparing the price of leading articles of that year, with the present, we find the charge in that time to be as follows:

	1553.	1954.	Increase.
Wheat	\$1.35	\$2.50	81.18
Corn	50	1.50	1.00
Butter		45	27
Eggs	12	50	18
Chickens	12	25	13
Lard	10	20	10
Ham	12	25	13
Paper	3.50	5.00	4.50

Now, does any sane, reasonable man suppose we can afford to print a paper as cheaply in 1864, as we did in 1853? If we pay farmers twice as much as we did for what they furnish us, should they not pay us more for what we furnish them? And we must not do injustice by exacting more of one person than from another.

The fact is plain - the reason just-and the inference unavoidable, that we may and should make some increase in our rates of charges. From those who had the paper at \$1, we shall bereafter require \$1.50- an advance of 50 per cent. only The usual price of \$1.50 remains unchanged - but we must have the pay cash in advance.
